# Nature's Crops International

NATURESCROPS  
INTERNATIONAL

**Nature's Crops International (NCI)** is a premier supplier of organic, non-GM, and expeller pressed oils. From soil to oil, we discover, grow, process, and deliver our own oils, ensuring **safe, sustainable, traceable and cost-competitive products** to our customers.

We manage the commercial production of our crops through contract crop production with growers in Prince Edward Island (PEI), Canada. A small island province located on the east coast of Canada, PEI depends on the land and the sea for its primary industries, and our growers here are well-experienced in producing identity preserved (IP) crops under sustainable agricultural practices.

## What are "Nature's Crops"?

"Nature's crops" are those grown and handled in a manner that places the safety of people and the environment in the highest regard. These crops provide raw materials that are used in a variety of applications and require careful segregation and isolation throughout the supply chain—from seed selection to the delivery of pure and natural plant oils.

From sowing through to harvest and delivery, NCI is directly involved in farming operations supporting our dedicated growers. Our proprietary system of identity preservation, known as *Crop Assured 365*<sup>®</sup>, ensures the tracking of our customers' products from the farm field, all the way through the supply chain to delivery. The result: our crops are grown with ecologically sound, sustainable methods, and our customers have the assurance their products are kept completely segregated at every step.

From soil to oil, no other company delivers the breadth of management of agricultural products that Nature's Crops International provides.

## Superior quality

Nature's Crops' oils come only from our own premium identity-preserved crops.

## Superior supply

We strategically manage oilseed crops to assure our customers have predictable, reliable, and sustainable supplies.

## Superior expertise

We are global experts in specialty oils, so we can help our customers find—or create—the solutions they need.

## Markets We Serve:

- Personal Care
- Fine Chemicals
- Pharmaceuticals
- Specialist Nutrition
- Medical Foods

FROM SOIL TO OIL. NATURALLY.

# Why Nature's Crops International?

Nature's Crops International focuses on supplying specialty crops and oils that cannot be reliably sourced on the open commodities market. These raw materials are essential to our customers' businesses and thus require a known, sustainable supply. That's why NCI has developed an innovative approach to producing identity-preserved, natural ingredients to meet the changing needs in this new business environment.

## Advantages you won't find elsewhere

### Accountability

Nature's Crops International is focused exclusively on crop supply chain products and services, ensuring the most responsive, accountable and expert service in our industry.

#### Crop Assured 365®

The supply chain for products developed from Nature's Crops is managed, protected, and tracked for integrity at every step. The *Crop Assured 365* process provides assurance of purity and security—365 days a year.

### Breadth

From soil to oil, covering all the details of delivering plant-derived ingredients, we manage the entire process and make it fully traceable, transparent, reliable and risk-managed, from ensuring supply seeds to meet next year's demand, to on-time delivery of our customers' oils.

### Independence

We are not affiliated with, or a competitor to, any of the service partners we use, so we are free to find the best resources and negotiate the best prices on behalf of our customers.

### Relationships

We have extensive, proven industry relationships with best-of-class partners, including seed companies, plant breeders, farmers, transport providers and processors, so we can leverage economies of scale and provide maximum flexibility. Those relationships also enable us to work collaboratively with partners and clients to remove unnecessary costs, waste and delay from the supply chain.

### Cost

As a one-stop source, no middle companies are involved, ensuring the products we provide are competitively priced. We can create a cost proposal tailored to our customers' specific requirements at any time.

### Proven track record

Our satisfied customers report that we deliver measurable value by enhancing their business efficiency and performance.
